DMT IPT Tasking for The DMT IPT Working Groups

Operations & Training

- Chair: Maj “Slap-A” Maxwell, AF,DOTO
- Develop and Coordinate MAJCOM Training Implementation Plans
- Baseline TTL or RAP events consistently across MAJCOMs
- Determine if each MAJCOM requires a DT ORD. If not, how are they governed by the CRD?
- Identify interactions required to represent operations and prioritize incremental implementation
- Identify “low hanging fruit” for near term support to AEF implementation

Technology & Innovation

- Chair: Dr. Herb Bell, AFRL/HEA
- Develop a Technology Investment Strategy which correlates to the TIPs
- Determine technology needs to harvest “low hanging fruit”
- Develop strategies for evaluating and incorporating new & emerging technologies in concert with the O&I contract and DWCs

Acquisition & Resources

- Chair: Dick Honneywell, ASC/YW
- From the TIS, develop an appropriate funding stream across the FYDP beginning in FY02
- Evaluate the ability of the current acquisition strategies to meet the needs of all users and recommend alternatives
- Explore industry partnership opportunities
- Examine identified “low hanging fruit” to ensure commonality

Security

- Chair: TBD
- Develop a “topdown” policy to support DMT security needs
- Develop a “bottom up” policy to maximize commonality across stovepiped classified programs
- Determine system/people/network/facility security requirements and document in a Security Classification Guide for DMT

Architecture Management

- Chair: Scott Winn, AFCIC/SYN
- Also serves as member of DMSO HLA AMG
- Develop guidance to develop architectures and networks across DMT to promote commonality & interoperability
  - In concert with the O&I contractor
  - Adhere to all known standards (HLA, etc.)
  - Maximize re-use and flexibility
- Develop plan to harvest “low hanging fruit” within confines of existing infrastructure

Data Management??

- Need to correlate Databases
  - Visual
  - Terrain
  - Multi-Spectral
- Need to incorporate weather effects
- Is there need for a central DMT Database Facility for V&V, storage & support of DMT activities?

Summary

- So much to do….
  so little time
